

IN THE CLAIMS:

6. (amended after RCE) The method according to claim 23, further comprising changing an end address of a cell containing said beginning point to an address of said beginning point when said segment extends between a plurality of cells.

(N.E.)

Ex. Amdt. B, cancelled claim 12

C

12. (Amended after RCE) The apparatus according to claim 24 further comprising means for maintaining a delete table to identify said segment which has been deleted as available space on said disc.

M
V

24. (amended after RCE) The apparatus according to claim 11 further comprising means for modifying a second jump command in a control data portion of said disc, said second jump command for causing playback from said disc to continue at said beginning point when reading in a reverse direction.
